Come to the Final Round in Odoo Combat 2024 Hackathon at Infocity Gandhinagar, competing among 2,500+ talented students.

## PROJECTS

- **Online Restaurant Table Reservation System (Your Food):**
  - A web-based system that enables customers to reserve restaurant tables online. The system helps restaurants manage reservations efficiently while improving customer convenience.
  - **Key Features & Responsibilities:**
    - ❖ Implemented online table reservation functionality with date and time selection.
    - ❖ Built customer registration and login modules.
    - ❖ Created reservation management system for restaurant administrators.
  - **Technology Used:** HTML, CSS, JavaScript, Bootstrap, PHP, MySQL.
- **Online Clothing Website (Shivay):**
  - Shivay is a full-stack e-commerce web application that allows users to browse clothing products, manage shopping carts, and complete purchases online with a modern UI experience.
  - **Key Features & Responsibilities:**
    - ❖ Implemented product listing, filtering, and search features
    - ❖ Designed responsive UI components using HTML, CSS, and Bootstrap.
    - ❖ Integrated backend services using Nest JS for product and order management.
  - **Technology Used:** HTML, CSS, JavaScript, Bootstrap, React JS, Redux, Nest JS, Firebase.
- **Online School Management System (Lok Jagruti Kendra):**
  - A web-based school management system that helps administrators manage students, teachers, classes, and academic records digitally.
  - **Key Features & Responsibilities:**
    - ❖ Implemented modules for student management, teacher records, attendance, and academic data.
    - ❖ Built secure backend integration using Prisma ORM and PostgreSQL.
    - ❖ Implemented role-based access for admin, teachers, students, and parents.
  - **Technology Used:** HTML, CSS, JavaScript, Bootstrap, Next JS, PrismaORM, PostgreSQL.
- **Online Brokerage Management System (NDDS):**
  - A brokerage management platform designed to manage brokerage transactions, client records, and contract details efficiently.
  - **Key Features & Responsibilities:**
    - ❖ Implemented modules to manage brokerage contracts and transaction records.
    - ❖ Built features for client management and data tracking.
    - ❖ Ensured data validation and secure data storage.
  - **Technology Used:** HTML, Tailwind CSS, JavaScript, React JS, Nest JS, Firebase.
- **Dynamic Portfolio Website (Phiomyst Healthcare):**
  - A dynamic portfolio website developed for a healthcare organization to showcase services, projects, and company information with an interactive interface.
  - **Key Features & Responsibilities:**
    - ❖ Implemented dynamic content rendering using Redux state management.
    - ❖ Integrated backend APIs using Nest JS.
    - ❖ Optimized website performance and responsiveness across devices.
  - **Technology Used:** HTML, Tailwind CSS, JavaScript, React JS, Nest JS, Firebase.
- **Smart Medical Inventory System (VaidyaMed):**
  - A medical inventory management system designed to track medicines, stock levels, suppliers, and inventory transactions efficiently.
  - **Key Features & Responsibilities:**
    - ❖ Implemented modules for medicine inventory tracking and stock management.
    - ❖ Implemented real-time inventory updates and stock alerts.
    - ❖ Implemented real-time stock clearing alert to clear the stock expire date wise, more profit wise or stock wise.
  - **Technology Used:** HTML, Tailwind CSS, JavaScript, React JS, Nest JS, MongoDB.
